# ARMAN SHARMA

Phone: +91-9816399151 | location: Kangra, Himachal Pradesh | email: armansharma98165@gmail.com | LinkedIn: linkedin.com/in/arman-sharma-88bb4a326 | GitHub: github.com/armansharma98165-web

## ABOUT

I am an Electronics and Communication Engineering student with strong knowledge of embedded systems, digital electronics, communication systems, VLSI, lot, and programming. Experienced in building academic and personal projects using C/C++, Python, Arduino, ESP32, MATLAB, and PCB design tools Quick learner with problem-solving abilities, teamwork experience, and a strong interest in core ECE and technology-driven roles.

## EDUCATION

B. Tech electronics and communication engineering — Nagrota Bagwan
Rajiv Gandhi government engineering college — Expected graduation: 2027

**Class XII**
Green Field Sr Sec. School — Nagrota Bagwan
CBSE Board – 2023

**Class X**
Green field Sr Sec. School — Nagrota Bagwan
CBSE Board – 2021

## TECHNICAL SKILLS

**Programing:** C++, Python, Embedded C
**Hardware and embedded:** 8051 Microcontroller, Arduino uno, UART, I2C
**ECE concepts:** Analog Electronics, Digital Electronics, Embedded System, VLSI Basics
**Tools & software:** Arduino IDE, ESP32, MATLAB, git & GitHub, Vivado

## PROJECTS

MICRO PROJECT: **Interfacing 7-Segment Display with 8051 microcontrollers**

- Designed and implemented interfacing of a 7-segment display with 8051 microcontrollers to display programed roll numbers.
- Developed embedded c/ assembly logic for digit control and display sequencing
- Gained hand-on experience in microcontroller programming, hardware interfacing, and circuit debugging.

MINI PROJECT: **RF-Based Wireless Device Detection System**

- Designed and implemented an RF signal detection circuit for identifying nearby wireless transmission devices.
- Integrated antenna, amplification stages, and LED/buzzer indicators for signal detection alerts.
- Performed circuit testing and debugging for stable real-time operation.
- Improved understanding of RF propagation, analog amplification, and signal processing concepts.

## SOFT SKILLS

Problem solving | Teamwork and adaptability | Time management | Hardworking and consistent | Creative thinking

## INTERESTS

Embedded system | IoT & Automation | Robotics | AI in Hardware System
